## 2020 INTEGRITY 380 SX

<b>Length Overall</b> (Inc. swim platform, exc. 600mm Bow Sprit)	12.2m (40' 0")
<b>Beam</b>	4.11m (13' 5")
<b>Maximum Draft approx</b>	1.16m (3' 8")
<b>Sleeping Capacity</b>	6 person
<b>Fuel Capacity approx.</b>	1,170 litres
<b>Water Capacity approx.</b>	550 litres
<b>Holding Tank Capacity approx.</b>	200 litres
<b>Engine</b>	Volvo D6 300HP to inc electronic controls and display
<b>Cruise Speed (approx.)</b>	7-8 knots
<b>Top Speed - WOT (approx.)</b>	9-11 knots

## CONSTRUCTION

Moulded GRP full-displacement hull in white gelcoat  
 Hull top sides reinforced for light weight  
 Independent compartments and stringer system  
 Solid hand laid fiberglass hull bottom with chines to waterline  
 Vinyl ester resin used in first two outer layers of hull  
 Water tight collision bulkhead forward  
 Water tight light weight cored bulkheads/flooring  
 White hull colour standard/inc boot stripe  
 Topsides painted in 2 pack white

## MECHANICAL & ELECTRICAL

Acoustic and thermal insulation throughout engine room  
 Non-skid flooring in engine room  
 Freshwater cooling on engine  
 Engine alarm system  
 Racor fuel filter  
 Anti-vibration engine mounts  
 Fibreglass exhaust system for engine  
 Fibreglass Aqualift exhaust for generator  
 Ventilation system includes blowers for engine room  
 Stainless steel propeller shaft  
 Dripless PSS shaft seal  
 Steering stock  
 Rudder locking pin  
 Bronze propeller  
 Bronze Seawater strainers for engine, genset  
 Bow Thruster 12V 6HP  
 Stern Thruster 12V 6HP  
 Full keel, GRP Rudder  
 All hoses double hose clamped below waterline  
 Ball valves on all seacocks and skin fittings  
 Hot water heater 40 Litres  
 Bilge pumps auto with manual override and high water alarms x 3  
 Manual bilge pump system

Automatic sump pump fitted to all showers  
 Fresh water pressure pump high volume 12v  
 Seawater pump for foredeck 12v  
 Sanitation system with macerator pump out and deck fitting for dock side pump out  
 Generator 4kW  
 Battery charger/inverter 12v 3kva  
 House Batteries- 400Ahr 12VDC, maintenance free  
 Engine Batteries -110Ahr 12VDC, Genset Battery 110Ahr 12VDC  
 All batteries fitted in GRP battery boxes  
 Battery paralleling system for emergency engine start  
 LED lighting throughout 12v  
 Engine room lighting DC  
 Navigation lights LED international compliant  
 All AC power outlets RCD protected  
 Bonding system to hull fittings, zinc anode incl. isolator  
 Tinned electrical wiring. Where applicable coded and labelled  
 Electrical panel DC with circuit breakers.  
 Shore power lead 15Amp  
 Fusion Stereo  
 Fusion speakers

## SALOON HELM

Twin helm bench seat, including footrest and storage underneath  
 Console for instruments  
 Full engine controls  
 Compass  
 Anchor winch controls  
 Safety monitor panel for bilge pumps  
 Stainless steel steering wheel leather wrapped  
 VHF radio with aerial  
 Horn electric  
 Hydraulic steering  
 Fuel and Water gauges  
 Helm sliding door access to side deck

### STATEROOM - FORWARD

Flooring high quality vinyl  
 Double berth with foam mattress  
 Hanging locker  
 Escape deck hatch from forward cabin stainless steel  
 Ocean air hatch cover with screen and blind  
 Reading and overhead lighting LED 12v (DC)  
 Private entrance door  
 Storage under berth  
 Opening porthole stainless steel x 4

### STATEROOM - MIDSHIPS

Flooring high quality vinyl  
 Double berth with foam mattress  
 Hanging locker  
 Opening porthole stainless steel  
 Reading and overhead lighting (DC)  
 Private door entrance  
 Storage under berth  
 Storage locker drawers  
 Mirror  
 Fresh water flush toilet  
 Towel hook  
 Hanging locker with drawers

### DECK

Anchor 45lbs, 60mtrs of chain  
 Anchor locker accessed by 2 hatches on deck  
 Anchor safety strap  
 Bow rail welded stainless (316) flag staff at bow  
 Bow roller stainless self loading  
 Cleats stainless steel x 6, (Bow x 2, Spring x 2, and Stern x 2)  
 Docking lines and fenders x 4  
 Escape deck hatch from forward cabin stainless steel  
 Exterior courtesy deck lights

Fuel fillers on side decks  
 Fwd windscreen in safety glass bonded to FRP frames  
 Rub Rail with stainless steel insert  
 Winch 12v with foot switches  
 Non slip on fwd deck house, side & foredecks & saloon roof  
 Sliding Side door to FRP deck house frame  
 Stainless steel swim ladder  
 Wash down tap (sea water & fresh) in anchor locker

### COCKPIT

Aft seat with teak table  
 Access hatch lockable  
 Flood lights, overhead lighting & courtesy DC  
 Hand held shower hot/cold  
 Stainless framed main saloon entrance door with hopper window  
 Teak laid cockpit floor  
 Wash down tap, fresh water  
 Cockpit storage under seating  
 GRP 1000mm swim platform finished with non slip  
 Shore power inlet located in cockpit locker

### DAY HEAD

Private entrance door  
 Overhead and vanity lighting LED 12v (DC)  
 Opening porthole stainless steel  
 Solid benchtop surface including basin and single lever faucet  
 Extraction fan  
 Shower stall with glass door  
 Shower rose  
 Mirror  
 Fresh water flush toilet  
 Toilet roll holder  
 Towel hook

### SALOON & GALLEY

**380SX**

Tinted opening glass saloon windows

---

Electric hot plate ( 2 x burner) cover and recessed

---

Microwave -powered off inverter

---

Refrigerator and Freezer (DC) underbench

---

Galley benchtop solid surface, stainless steel twin sink with single lever faucet

---

Sink and cooktop cover recesses in benchtop

---

Galley storage cabinets and soft close drawers

---

Headliner in high quality vinyl

---

LED lighting overhead 12v

---

L-Shaped saloon lounge with timber table and storage

---

Flooring high quality vinyl

---

Blinds

## INTERIOR

---

High quality vinyl flooring in saloon and companionways and cabins

---

Vinyl headliner covered ceiling with wood trim design features

---

Teak Timber satin finish

## 2020 INTEGRITY 380 SX

A full-length keel not only assists with stability but also provides protection to the prop, running gear and rudder. Should you bump aground, simply back off and continue your journey.

Our hulls are laid up to survey standard along with vinyl ester tie layers for strength, durability and osmosis protection. FGI Gelcoat is used on the exterior of the hulls specifically formulated and applied to suit Australian conditions.

Vessel hull slap is an annoying issue that anyone who has tried to get a restful sleep on a "loud" boat at anchor will recognise. The design of the hull featuring no planing strakes means very minimal or no slap at rest.

Bow and stern thrusters as standard on each model offer finger-tip control ensuring simple and easy berthing in all conditions. The side helm door and through rail access makes single handed, step on, step off docking a breeze. Side and stern access from the swim platform means boarding is safe and simple, no leaps of faith required.

There is easy access to all areas of the boat fore and aft, with wide

side deck walk arounds and high handrails ensuring safety for passengers at anchor or underway.

The wide swim platform is perfect for on water recreation. Featuring a sturdy boarding ladder and a retractable hot and cold freshwater shower. Stainless stern rails can be added to accommodate a BBQ, bait preparation boards, tenders and rod holders.

The beamy cockpit layout features full wrap around seating and a drop-down teak table creating additional sea berth accommodation or a day bed. There is ample under-seat storage and a self-draining ice box that can be converted to extra refrigeration if required.

Ensuring an easy flow throughout the vessel main deck the cockpit connects via a trademark wide hopper window and door to a spacious open plan saloon and aft galley servery. A layout providing the opportunity for seamless indoor/outdoor entertaining.

An Onan diesel powered generator and inverter are standard allowing for all of your 240V electricity needs. Reverse cycle air-conditioning is available as an option ensuring comfortable cruising in any climate.

### NEW INTEGRITY 380SX WITHOUT THE WAIT. THE EXTRA FEATURES ADDED TO THIS VESSEL MAKE IT A REAL STANDOUT:

- ARG GYRO STABILISATION
- FULL CAMPER COVERS
- UPGRADED TEAK AND HOLLY FLOORING
- 16,000 BTU AIRCON TO SALOON
- 12,000 BTU AIRCON TO THE CABINS
- FULL RAYMARINE NAV PACKAGE INCLUDING AUTOPILOT
- TWIN STAINLESS RAILS TO THE REAR AND ROOF LADDER.

## THE INTEGRITY ADVANTAGE

The Integrity Advantage are 27 unique features that not only make Integrity leaders in our market, but highlight why Integrity Motor Yachts are the only choice for affordable long-range cruising. All advantages have been considered, designed and implemented to make your boating experience even more enjoyable.

### 1. 360 DEGREE WIDE WALK AROUND DECK

Every Integrity features full easy access to all areas of the boat, with wide side decks and high bow, stern and hand rails ensuring safety for passengers at anchor or underway.

### 2. INVESTMENT IN A TRUSTED ICONIC BRAND

The leading displacement motor yacht brand in Australia. With over 100 boats sold & the backing of a dealer network, there's certainty in knowing you're investing in a known and well respected brand with strong resale value.

### 3. SEPARATE HEAD AND SHOWER COMPARTMENT

Rarely offered in boats of this size, a separate shower ensures little water splash throughout the bathroom and more room to enjoy your shower. It also offers privacy for those using the shower or toilet.

### 4. INNOVATIVE ELECTRICAL SYSTEM MANAGEMENT WITH SOLAR

With advancements in solar capabilities and advanced power management systems, your Integrity when fitted with solar can operate for lengthy periods without the need for shore power or generator.

### 5. FACTORY BACKED DEALER NETWORK

We maintain Independent Dealers in all major territories, offering full warranty and service support. We appreciate the opportunity to assist our owners with whatever little headaches may arise, and we never let them down.

### 6. MORE THAN OWNING A BOAT

We introduce our owners to a series of on-water and off-water events. Fully escorted trips allow our owners to expand their navigational and boating experiences in the company of other owners and our experienced team members.

#### 7. PROVEN DISPLACEMENT HULL WITH CLASS LEADING BEAM

With a number of our boats having travelled many thousands of sea miles, the seakeeping abilities of our range is without question. The class leading beam ensures stability in all conditions, particularly when at rest.

#### 8. MINIMAL HULL SLAP

A little thought about but very important feature, as anyone that has tried to sleep in a boat with water slapping under the hull knows is most annoying. Our boats have no planing strakes meaning no slap at rest.

#### 9. SOLID HAND-LAID FIBREGLASS HULLS FOR STRENGTH AND DURABILITY

Our hulls are laid up to survey standard along with vinyl ester tie layers for strength, durability and osmosis protection. FGI Gelcoat is used on the exterior of the hulls especially applied to suit Australian conditions.

#### 10. FULL LENGTH KEEL ENCASING THE PROPELLER AND RUDDER

The full length keel assists with stability while offering protection to the propeller and rudder. Should you run aground, simply back off and continue your journey.

#### 11. EASY TO HANDLE WITH EFFORTLESS DOCKING

Bow & stern thrusters as standard on each model offer finger-tip control for simple and easy berthing in all conditions. Helm door, side rail and stern access from the swim platform means marina & jetty access is safe & simple.

#### 12. LARGE SWIM PLATFORM

The extensive swim platform features a sturdy deep water ladder, plus retractable hot and cold freshwater shower. Stainless stern rails can be added to house BBQ's or preparation boards, tenders and rod holders.

### 13. INNOVATIVE COCKPIT DESIGN

The beamy cockpit layout features full wrap around padded seating with a drop down teak table, creating additional accommodation or a day bed along with under-seat storage and self-draining ice box.

### 14. GENERATOR AND REVERSE CYCLE AIR-CONDITIONING

Onan diesel powered generator offered standard allowing for all of your 240V electricity needs including coffee machine, toaster, juicer, hair dryer and more. Ducted air-conditioning is available.

### 15. LARGE STAINLESS STEEL HOPPER WINDOW AND DOOR

Critical to creating the flowing cockpit, galley and saloon layout, the sturdy stainless steel hopper window and door is a trademark feature of our range.

### 16. WELL APPOINTED AFT GALLEY

Large fridges, double bowl sink with flick mixer, modern corian style bench tops, microwave and glass twin top hotplate are just the start. Considerable storage is a feature along with additional refrigeration options.

### 17. RELIABLE FUEL SUPPLY SYSTEM

Racor fuel filters with isolation taps are fitted to bypass blocked filters and reduce the chance of contaminated fuel. Separate ball valves are installed to assist the return or transfer of fuel, and sludge tanks with ball valves are included in the fuel tanks.

### 18. LONG RANGE CRUISING WITH LARGE WATER AND FUEL CAPACITY

The long-range performance and economical capabilities of our range is supported by large fresh water and saltwater storage. Large fuel tanks with the option of adding a water maker extends the cruising capability.

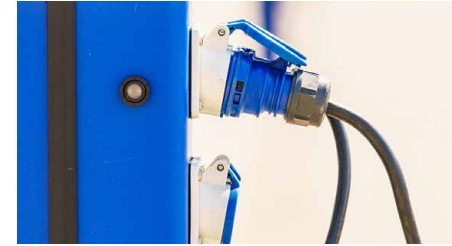

### 19. SPACIOUS ACCOMMODATION

More spacious & roomy accommodation in the bedrooms, featuring full size island beds. Saloon & cockpit tables lower to create additional double bed accommodation across the range. Cedar lined full length cabinets ensure clothing is stowed moisture & pest free.

### 20. CLASSIC STYLISH LINES WITH A CONTEMPORARY FEEL

The inspiration for our range comes from the traditional cruising motor yacht, featuring timeless classic lines. We apply contemporary design elements to ensure our range have a striking on water appearance.

### 21. SAFETY FIRST

Australian Manufactured and Certified 240V DC electrical systems are fitted to all Integrity models.

### 22. ENVIRONMENTALLY CERTIFIED DIESEL ENGINES

Electronically controlled to US Tier 3 emission compliance standards.

### 23. GRADE 3 TUNED AND BALANCED PROPELLER

Each propeller is tuned to match the individual model and engine choice and balanced to 'Grade 3' standards for optimal running.

### 24. EXTENDED MANUFACTURES WARRANTY

New Integrity vessels now carry 2 years Warranty on ALL Integrity manufactured items & security of The Whitehaven Group.

### 25. THE INTEGRITY GREEN PACKAGE

The integrity Green Package includes; no primary generator, lithium house batteries, second alternator, roof installed solar panels, inverter for 240V, low voltage draw appliances and portable 2.0 KVA emergency generator.

### 26. LIMITED MANUFACTURERS BACKED WARRANTY AVAILABLE

Limited Manufacturers backed warranty available on selected used Integrity's under Four (4) years old when sold or traded by your local Authorised Integrity Dealer. Subject to vessel pre-inspection & approval by the Manufacturer.

### 27. BRAND SUPPORT

Integrity vessels are backed by the strength & security of The Whitehaven Group.
